

ECO Binder

Improved productivity

Less packaging

Reduced labour costs

Comfortable & ergonomic for the operator

ECO Bundling machine

The essential bundling machine

Cutting-edge technology

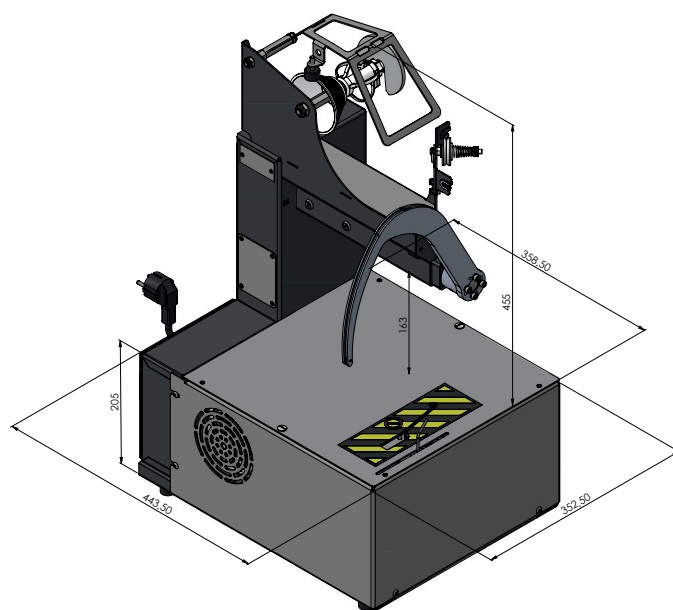

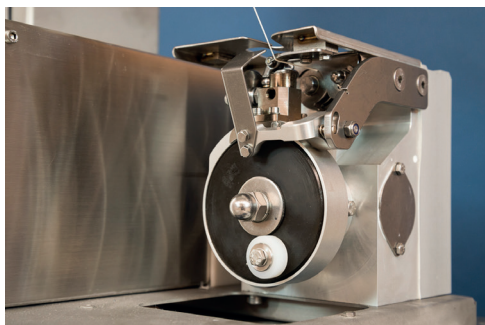

The ECO binding machine can be used to **attach, bundle** and **tie** all types of products such as vegetables, flowers, cables, fabrics and much more. It can be used as **standalone machine** or **incorporated into automatic lines**. Its unique ARC knotting technology allows you to work in the **toughest environments** (sand, water, sludge). You can use many types of string tailored to the type of products being bundled.

Very simple and safe, it is very comfortable for the operator and significantly reduces the physical strain of bundling work.

Demonstration
video

unit of measurement : millimeter

Technical information:

Capacity	Up to 5,000 cycles/hour
Consumable	Elastic, single, triple, knitted or rigid string Discover our plastic-free solutions
Trigger	Table / foot pedal
Knotter	ARC patented knotter
Power	220 V / 110 V / 100 V
Weight	33 Kg

Our commitments for a cleaner industry.
