MADE IN  
FRANCE

# SE1 NEO Taping machine

The essential

## Cutting-edge technology

The SE1 NEO is the latest generation of banding machine.

It has taping heads from the ARC industrial range for more intensive use.

Its new design allows you to work on products with a diameter up to 215 mm.

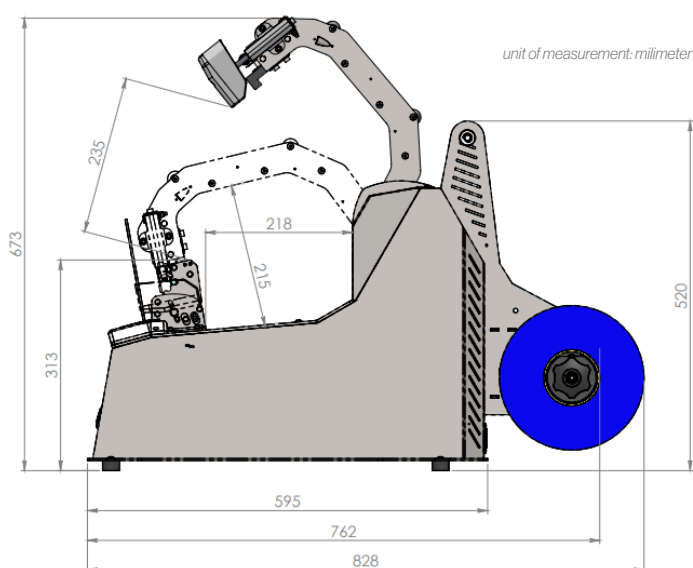

Completely safe, it delivers outstanding ergonomics and working speed.

Equipped with an optional inkjet printer, the SE1 NEO is ideal for creating bundles of vegetables, batches of all kinds of products or marking individual products such as bananas, cauliflower, Chinese cabbage, black radish, squash, leeks, etc.
