

# SSB Tying machine

**0.44 sec / cycle**

**Improved productivity**

**Comfortable & ergonomic for the operator**

**Reduced labor costs**

# SSB Tying machine

THE table-top tying machine

## Cutting-edge technology

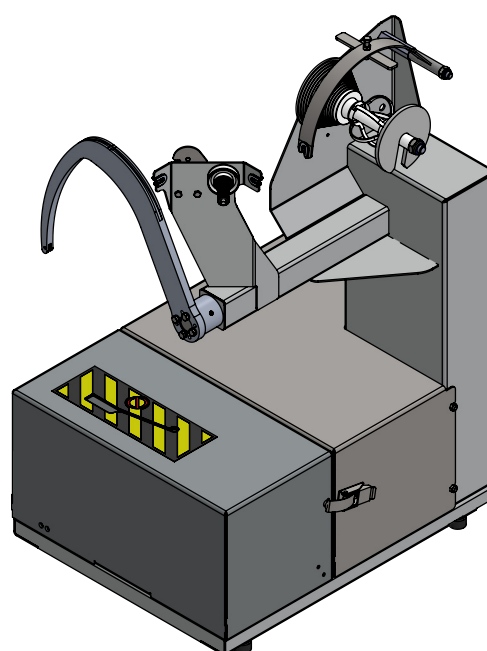

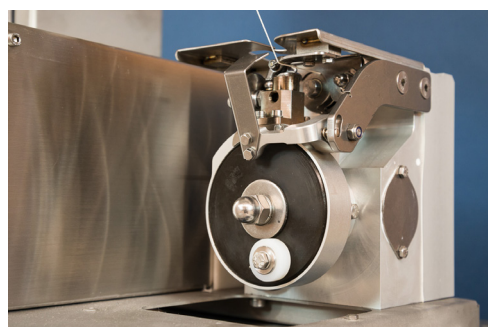

The SSB is the benchmark tying machine in the food industry. It can be installed as a table-top machine, or as part of an IPA type packing line. Its unique knotting technology makes it the most reliable tying machine on the market, able to work in the most demanding environments like water, blood or fat.

Easy to use and clean, it is ideal for creating paupiettes and small roasts.
