KWIK LINK Bundling Machine

The 2-in-1 bundling machine

Cutting-edge technology

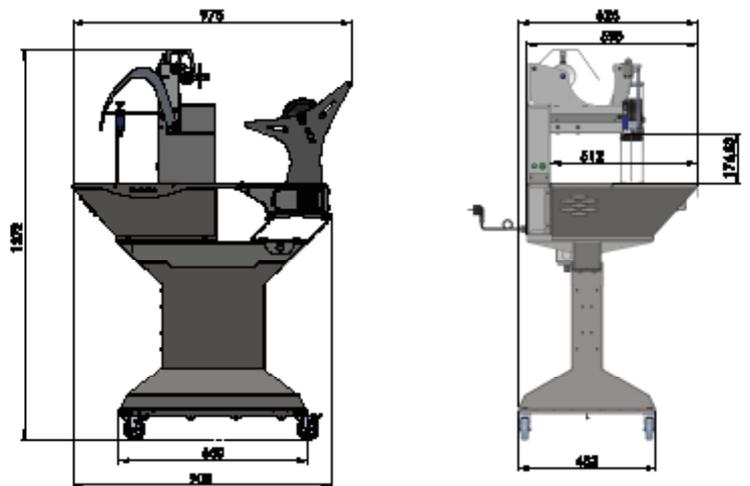

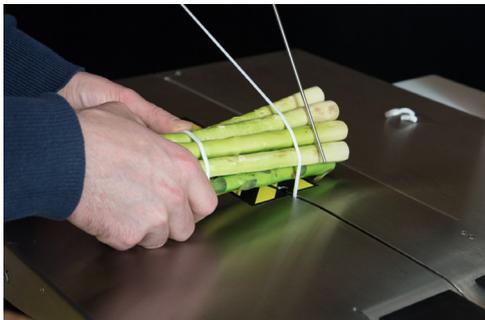

The **KWIK LINK** binding machine allows you to **bundle** and instantly **attach** a label at the same time. These labels can be pre-printed with logos, barcodes and any other information to market and categorise your products. Several label and string sizes are available, including plastic-free solutions meeting new environmental standards.

The KWIK LINK is ideal for creating bundles of onions, carrots, asparagus, herbs...

Demonstration video

unit of measurement: millimeter
